

- Wireless, Batteryless Pressure Sensor.
- Specifically designed for the composite manufacturing industry.
- Suitable for Resin Infusion/VARTM, Vacuum Prepreg, Autoclave Prepreg Processes.
- No vacuum bag penetration required, no risk of leaks.
- User friendly app with automatic history log.

Measurement Range:	0 to 1200 mbar absolute
Accuracy:	+/-2 mbar
Temperature:	0 to 120°C operating range
Pressure:	0 to 6 bar autoclave pressure
Available Pressure Units:	mbar, bar, mmHg, "Hg, psi (user selectable in App)
Available Temperature Units:	°C, °F (user selectable in App)
Dimensions:	75mm x 66mm x 9mm
User Interface:	Android and iOS App
Ingress Protection:	Resistant to resin when enclosed in VacPuc Pouch
