

Rohacell® Net-Shaped Machining Services

Technology Marketing, Inc. (TMI, Salt Lake City, Utah, U.S.) is now able to offer directly to its customers machined net-shaped services for Rohacell® structural foam core. Technology Marketing, Inc. (TMI) has supplied and supported customers with Rohacell® structural foam core as a standard sheet form for over two decades. As the North America distributor for Rohacell® structural foam core, Technology Marketing, Inc. (TMI) providing this capability directly to our customers is invaluable. With an extensive knowledge supporting structural foam core requirements, our technical staff are an immense benefit for this new offered service.

High quality machined net-shape foam parts are attainable with the capabilities of a high precision 5-axis CNC machine, featuring a table size of 125" x 80" with 36" in the z-axis. Any part requirements are possible from first article developments to shapes with complex geometry. Capacity to support low or high volume part quantities are feasible for any project or application. All part produced are processed with expert support and the proper tools to assure the highest quality standard is provided. To ensure the quality of each part project or application produced is certified to conform to the requested requirement or specifications. The final net-shape foam parts are transported in a sealed desiccant enclosed MIL-PRF-131 aluminum bags to mitigate moisture uptake during transit. Technology Marketing, Inc. (TMI) awaits the opportunity to assist its customers with machined net-shape Rohacell® structural foam requirements.

As a prominent supplier, Technology Marketing Inc. (TMI) offers innovative quality materials, service, and technology supporting the advanced composites industry for over 45 years. In addition to the new machined net-shaped services of Rohacell® structural foam core, TMI offers product materials for tooling, resins, cutting solutions, mold releases, processing materials, prepregs, woven & non-woven reinforcements, hoses, abrasives, drilling & routing tools, surface cleaning, shop accessories and more.
