

EMBOSSSED POLY FILM

Diamond Embossed Polyethylene Film

Features:

- Small shallow diamond embossed polyethylene cast film.
- Commonly used as a release carrier for prepregs and film adhesives.
- Compatible with most commonly used resin systems.

Applications:

- Suited for use on vacuum table operations such as automated cutting equipment.
- Additionally can be used as a low temperature release film

Properties:

Technical Data:	Typical Value:
Yield (Thickness)	4 Mil
Pattern	Small Diamond
Emboss Thickness	13 Mil
Color	Red
Tear Resistance	1.3 Lbf
Elongation	650%
Tensile Strength	2700 PSI

The above values are "Typical Values" which have a nominal range about them and are not intended for specification purposes.

Availability:

- Standard Width: Up to 88"
- Standard Thickness: 0.003 – 0.004 mil
- Non-standard widths and thicknesses are available upon request (minimum may apply).

Storage:

- Store in original packaging and protect from the environment.

Health & Safety:

- Handling of these products must conform to individual company guidelines and health and safety regulations.
